

SURGICAL BANDAGE (BPC)

DISCRIPTION:

Surgical bandage BPC consists of fabric of plain weave, in which cloth is made up of 100% pure absorbent cotton, bleached to a good white and purified. It is particularly odorless reasonably free from weaving defect and contains not more than traces of leaf residue, seed coat and other impurities.

FEATURES:

- Open weave bandage, hypoallergenic and made from 100% Cotton.
- Each bandage individually wrapped traditional non-stretch cotton weave BP quality cotton.
- The bandage does not contain elastic and will not constrict wounds.
- Loose weave construction allows wounds to breathe.
- The edges are evenly cut, parallel to the warp thread, and reasonably free from loose threads.

INDICATIONS:

- It is non-elastic and used to hold wound dressings in place without constrict or applying pressure to the wound.
- It is designed to use as a dressing retention bandage.
- For fixation of dressings and medical devices.

PRECUATIONS:

- Do not use bandage around the neck.
- Do not use it for compound fracture and broken bone in which the bone is sticking out of the wound

STORAGE:

- Keep in cool & dry place.

AVAILABLE SIZES:
